

TP3 Global receives Royal recognition by winning the Queen's Awards for Enterprise 2018

Birmingham, UK, 23 April 2018 – TP3 Global, a leading global innovator and provider of thermal protection for temperature sensitive cargo, is pleased to announce it has been awarded the 2018 Queen's Awards for Enterprise in the International Trade category for its globally-recognised Silverskin™ brand.

The Queen's Awards for Enterprise are the United Kingdom's most prominent business awards, which commend enterprise excellence. TP3 Global won the recognition for outstanding growth in overseas sales over the past three years. SilverSkin™ has become a major brand in the market, recognised, approved and used by the leading pharmaceutical companies around the world. TP3 Global has seen rapid growth thanks to a strong focus on providing consistent quality and innovative solutions to a worldwide client base.

Clive Wheeldon, President of TP3 Global, commented: "We are extremely proud to achieve the prestigious Queen's Award for Enterprise for international trade. Our commitment to providing market-leading products, innovation and high-quality customer service has resulted in working with the industry's leading pharmaceutical companies. We continue to invest heavily in R&D, global footprint and customer service ensuring we stay at the forefront of the market. We are delighted to see many of the world's pharmaceutical companies utilise SilverSkin™ to maintain the integrity of their products in their supply chain. Our team is very proud to have won a prestigious Queen's Award that recognises our on-going commitment to innovation and excellence for international trade."

The Queen's Awards for Enterprise first began in 1966. They are awarded to businesses for outstanding achievement in four categories International Trade, Innovation, Sustainable Development and also for Promoting Opportunity (through social mobility).
